

Dressta TD-25M

£POA

When it comes to operational performance, nothing stands in the way of the New TD-25M.

In the mine, in the quarry, on the road site or in any heavy weight application, the superior pushing power and control of the New TD-25M sets this dozer apart. Climb into the cab, experience the power and you'll know you've made the right choice.

With the New TD-25M we set ourselves the challenge to deliver the ultimate operator experience.
