

Dressta TD-40

£POA

Visibility is one of our core values and is key to operator safety and productivity - the more you see the more you can do in safety.

The TD-40's high-visibility cab presents clear views to the tracks, blade corners, and ripper. With a rear-view camera, and additional ripper lighting, when it comes to improved visibility, you've got the jobsite covered.

Product Details	
Category/Type	Dozers
Make	Dressta
Model	TD-40
Year	67,700Kg
Hours	415 kW - 425 kW

In addition, our new, variable hydraulic system reduces fuel consumption by 5%.

When it comes to sensitive control, the TD-40 puts the power in your hands. Unrivalled blade and ripper performance is delivered by Rexroth's world-class electro-hydraulic valve control, Intelligent blade speed mode (Slow, Neutral, Fast) (CHECK THIS) and auto downshift controller. Compatible with world leading machine control and productivity solutions from Leica, Topcon, and Trimble, the TD-40 delivers fewer passes, higher fuel economy, lower fatigue and
