

Liugong 856H

£POA

In tough quarrying and mining environments, there's no room for guesswork. You need to know that your wheel loader can easily handle all the strenuous day-to-day tasks with speed, economy and unending stamina. Your business credibility ultimately depends on your machine's operating performance and with our new 856H you can be sure that your reputation is in safe hands.

At the heart of our exceptional powertrain lies the latest Cummins B6.7 engine. This power house has been designed to deliver impressive acceleration and torque output, along with a serious

Year	19,870 kg
Hours	168 kW

2,000 rpm and fully complies with EU Stage V emission standards without compromising on power or performance.

For operational efficiency, the engine uses a precise, high pressure common-rail fuel injection system, turbo charger (VGT) and air to air intercooler, along with electronic engine controls to deliver optimal performance in every cycle in every shift. Engine emissions are virtually eliminated by NOx and Dual reduction technology, ensuring that the 856H delivers, both for the environment and the bottom line
