

Liugong 930F

£POA

There's no need to compromise digging performance to get the highest fuel efficiency because the all New 30 - 42T range gives you both. With greater torque and more power at lower engine speeds you get the power you want and the fuel efficiency you need.

With VGT technology, six-cylinder Cummins engines deliver 5% extra torque compared to high torque at low engine speeds. VGT enables the engine to maximize its power output whilst creating less noise and using less fuel.

Engine Auto Idle and Auto Shutdown make every single drop of fuel count. Reducing

Product Details

Category/Type	Excavators
Make	Liugong
Model	930F
Year	31,500 - 35,400kg
Hours	161kW

20% Increased Slew Torque on 930F/933F and 23% Increase of 936F/939F/942F

Increased Travel Motor Power: 930F/933F - 6% Increase 942F - 9% Increase

942F offers increased lift performance with 20mm larger diameter boom cylinders.

Smart operators choose smart machines because they know their job is tough enough. When it comes to intelligence and control the all New (30 - 42T) range may surprise you as it's packed with smart features to make it easy.
