

Liugong 995F

£POA

Take a walk around the New 995F and you will see the difference. It's a big, tough machine that's high on productivity, reliability and operator safety and comfort.

Whatever the job, our New 995F will work smarter and harder for longer to get that job done. From removing the overburden, to creating access roads. From mining applications, to extracting, breaking and handling materials to reclaiming the site at the end of its life. No matter the job, the 995F delivers shift after shift.

Tough environments demand the highest productivity and efficiency from machines. With greater

pressurised cab, all-round visibility and the highest levels of comfort and instrument ergonomics

create a place where you will want to work.

In your tough world time is money and down-time is lost revenue. The New 995F has been designed to make every second count. From productivity benefits like faster cycle times to improving reliability by strengthening key components such as the boom and the arm. In designing the New 995F, we've placed your desire to get the most productivity out of every day.
